**STUDY ON ASSESSING THE EXTENT OF INCLUSION OF WOMEN IN LEADERSHIP BY
TRADITIONAL RULERS IN SIX COMMUNITIES IN ENUGU STATE, NIGERIA
BETWEEN 2010 AND 2021**

In order to contribute to available literature on women's inclusion in leadership in Nigeria, WINET received support from the Nigerian Women Trust Fund (NWTF) to assess the extent of inclusion of women in leadership in six Communities in Enugu State. The Communities are Obige-Obukpa and Breme-Ehandiagu in Enugu North Senatorial Zone, Mbulu-Owo and Umueze in Enugu East Senatorial Zone and Alum-Inyi and Ezema-Olo in Enugu West Senatorial Zone.

Findings from the study show that:

- To a very large extent, advocacies thus far, have influenced women's inclusion in leadership and decision making by traditional rulers in Communities in Enugu State since 2010.
- The communities do not have the legal framework to include women in Cabinets but their Constitutions are gender neutral and accomodates inclusion of women.

Summary of findings

- 80% of the respondents wish their traditional rulers included women in their cabinets, indicating overwhelming support of the respondents for women's participation in decision making in the traditional cabinets.
- Almost 60% of the respondents believed campaigns and sensitizations positively influenced their support for women to be included in their Igwes' cabinet.
- When disaggregated by gender, about 93% of the female respondents and 82% of the male respondents support constitutional provisions for and protection of the rights of women to be members of their Igwes' cabinets.
- Both male and female respondents were almost equally (about 45%) influenced by the sensitizations and campaigns for women to be included in traditional rulers' councils.

On the dissemination of the report in Nigeria, 16 persons comprising 15 representatives of CSOs and a journalist attended the public presentation event in Enugu; it has received 141 Views and 14 Downloads on www.feministhub.org as at December 2022. Over 150 individuals and organizations have received hardcopies of the report.

Focus 2: Sexual and Gender Based Violence

SUSTAINED ENLIGHTENMENT CAMPAIGN TO END VIOLENCE AGAINST WOMEN & GIRLS AND SEXUAL AND GENDER-BASED VIOLENCE (SGBV) IN ENUGU STATE SUPPORTED BY ACTIONAID NIGERIA UNDER WOMEN'S VOICE AND LEADERSHIP NIGERIA (WVL-N) PROJECT, FUNDED BY GLOBAL AFFAIRS CANADA

The project, now in its 4th year, included massive media campaigns messages and interactive programmes on Radio, town hall meetings and Community dialogues to end SGBV in Enugu State. Activities in 2022 included 3-Day Residential Comprehensive Training for Women Peer Facilitators on the use of the ActionAid Nigeria Peer Education Manual & sensitization on provisions of Enugu State Violence Against Persons (Prohibition) (VAAP) Law (2019) for women groups in Ugwuaji and Amagu Akegbe-Ugwu Communities. The training was to empower women through transfer of knowledge and skills necessary for self-development and enhance their ability to mobilize and organize for collective actions. Topics covered included personal development, livelihood, family and community relationships, well-being, rights and responsibilities, inclusion, hygiene and nutrition.

In Ugwuaji Community, Enugu South Local Government Area, the participating women groups are Umuaro Women Welfare Association and Umuagulu Women Forum, while in Amagu Akegbe-Ugwu Community, the groups are Ugwu Nwanyi Bu Di Women and Nma Nwanyi Bu Di. The peer educators are using contents of the Manual to train others in their groups/associations meetings to understand some cultural, personal situation or conditions in their lives and communities. They have learnt to improve on their relationships as members of groups, following what they learnt on Interpersonal Relationships. The Umuaro Women Welfare Association Savings and Loans micro-credit facility is becoming stronger with more women borrowing money to boost their businesses and farming. The women are putting into action what they learnt to enhance their well-being and lead changes in their communities.

In Amagu Akegbe-Ugwu, Nkanu-West Local Government Area, the women are asserting themselves to support community growth. Due to issues of adolescent's misbehavior and with the approval of the Traditional Ruler, HRH Igwe Ignatius Ogbodo Ugwu, the women have formed "Amagu Women Peace and Security Committee", to monitor activities in the market from 7.30pm to 10pm when the market closes. The Committee is to hand over to the community vigilante and Police for prosecution, those engaged in illegal acts in the market. The women have established a communication channel with the Traditional Ruler which has enabled them to discuss their concerns with him and his cabinet. One issue which they have presented to the Traditional Ruler is the urgent need to include women in the Igwe's Cabinet. Eighty (80) women are benefitting in both project Communities.

Focus 3: The Rights of Persons with Disabilities

HUMAN AND DISABILITY RIGHTS EDUCATION FOR WOMEN WITH DISABILITIES IN ENUGU STATE, NIGERIA SUPPORTED BY AFRICAN WOMEN'S DEVELOPMENT FUND (AWDF) 1ST FEBRUARY 2021 – 31ST JANUARY 2022

Activities of the project culminated in the dissemination of an endline research report to Civil Society Organizations (CSOs) and the media. It determined what changed in the lives of female PWDs, who were empowered with information on their human rights and procedure for enforcement.

Findings showed that the level of understanding of fundamental rights; basic concept of human rights, violation of rights and how to remedy them by Women with Disabilities (WWDs) in Enugu State improved as a result of the training. Significant changes were recorded in the percentage of the WWDs with adequate knowledge before the training, to those who have such after the training. The aggregated scores of the WWDs' knowledge of fundamental rights, rights against discrimination, rights violation, procedures for remedying these violations and the attendant penalties increased from an average of 20.2% before the training to about 59.8% after the training (about 40% increase). Scores showed that the ability to report cases of rights violation to appropriate authorities has increased among the WWDs. For this reason, the number of WWDs that are approaching the appropriate authorities for redress after the training has significantly increased. Eighty-four (84) women with disabilities benefitted from the training.
